ABOUT THE SEMINAR

Education has been recognized as the process of learning or acquisition of knowledge, skills, values, morals, beliefs for full human potential. It is considered to be the single greatest tool for social and individual development, which leads towards achieving social justice and equity in society. Though we learn many things in our everyday life, formal education, which is the preferred tool for human resource development, refers to the academic institution where defined curriculums are taught or demonstrated by teachers

NEP 2020 and desired attributes of teachers Education is the process of learning or acquisition of knowledge, skills, values, morals, beliefs for full human potential. Education is the process of learning or acquisition of knowledge, skills, values, morals, beliefs for full human potential. It is considered to be the single greatest tool for social and individual development, which leads towards achieving social justice and equity in society. National Policy on Education of 1986 of India also described that no system of education can rise higher than its teachers. There is number of sayings about the role of a teacher in the transformation of society. Keeping in mind the importance of teachers in the education system, the NEP -2020 has underlined the role of teachers along with the desired attributes of teachers for nation-building. In this policy, the teachers have been put at the centre of the most needed fundamental reforms in the education system. The policy has also emphasized re-establishing teachers, at all levels, as the most respected and essential members of our society, as they shape the future generation of the country.

As a step forward, the NEP-2020 has also elaborated on the recruitment of good teachers in a transparent method, to give autonomy while also instilling a sense of responsibility and accountability in every teacher. We must appreciate that the role of a teacher education is not confined to teaching strategy for classroom teaching of four walls, but also in developing course curriculum, producing quality books and study materials, innovation in teaching-learning methods, assessing students, mentoring students etc. The NEP 2020 hence, has reiterated the restoration of high respect and status for teachers in the society with empowerment. Accordingly, an action plan for capacity building has been outlined so that man making becomes flawless. At the same time, the NEP has elaborated on the required attributes for teachers to make them good teachers to achieve the objectives of NEP and make it fruitful. Now the question arises, who is a good or ideal teacher? What are the desired attributes that an ideal teacher should possess? Who will judge or assess a teacher's acquiring attributes to consider him/her as an ideal teacher? Can we identify some attributes that every teacher is to imbibe? There' may be several such questions on attributes of a good or ideal teacher but may be difficult to answer or to zero down. Keeping in view above facts and circumstances a number of challenges are exposed in front of us for teacher education towards effective implementation of New TEP- under NEP-2020.

About the College

This college is run by "Ravi Mahato Smarak Shiksha Evam Swasthya Vikas Samittee, Mahuda". Ravi Mahto Smarak Teacher's Training College was established in 2012. The college is B.Ed. course recognized by National council for Teacher Education Govt. of India (ERC, NCTE, Bhubaneshwar) and Affiliated to the Binod Bihari Mahato Koyalanchal University, Dhanbad, Jharkhand. & D.El.Ed. course recognized by National council for Teacher Education Govt. of India (ERC, NCTE, Bhubaneshwar) and Affiliated to JAC, Ranchi, Jharkhand.

The college aims at catering to the academic needs of the students of Dhanbad, particularly those belonging to economically backward families of the surrounding of this area. It also aims at developing the personality of the individuals and at grooming them into worthy citizens of tomorrow with a depth faith in oneness of God and Universal Brotherhood of man.

OBJECTIVES OF SEMINAR

1. Education has been recognized as the process of learning or acquisition of knowledge, skills, values, morals, beliefs for full human potential.
2. Considered to be the single greatest tool for social and individual development, which leads towards achieving social justice and equity in society.
3. This formal education is conceptualized as a tri-polar process with aims, curriculum and evaluation, leading to bringing of a child to a human resource.
4. National Policy on Education of 1986 of India also described that no system of education can rise higher than its teachers.
5. NEP-2020 has underlined the role of teachers along with the desired attributes of teachers for nation-building. In this policy, the teachers have been put at the centre of the most needed fundamental reforms in the education system.
